To Whom It May Concern:

It is my privilege to recommend Ms. Deborah Leance for the position she is applying to. I have had the privilege of working with Ms. Leance professionally as a fellow teacher when we both worked at Garey High School as well as her summer school principal while I was at Fremont Academy. Both schools are located in Pomona, California.

Throughout my time interacting with her, the one constant that stands above all else is her advocacy for her students. Time and time again, she places the needs and dreams of her students above all else. A fearless defender to her students and their families, Ms. Leance gave a voice for those that did not have one. Her conscience choice to work in the Pomona Unified School District lends incredible credence her personal mission statement of bettering the lives of families and generations to come through education and knowledge.

An educator's primary mission is to motivate, inspire, support and encourage their student's in such a way to improve their future. Ms. Leance is the very embodiment of that educator.

Please contact me should you have any further questions.

Respectfully,

Albert Tan
